

SUNDAY, OCTOBER 29, 1893.

MAYOR CARTER HARRISON was shot and killed at his residence last night. He was elected to welcome visitors to the World's Fair, but he was not permitted to live to bid them good-bye when the Fair closes to-morrow.

A CHANCE FOR THE DEMOCRATS.

That the Democratic party is demoralized and almost disrupted by its course on the financial issue is a fact too apparent to be disputed by anybody who is informed on current events. In several States it does not pretend to maintain an organization and its grip on the South, which was fastened by fear of negro supremacy, is being loosened. In Georgia, Alabama, South Carolina, Texas and Virginia many of its ablest and most popular leaders are heading the revolt against its modern methods. They see that it is dominated by the money power and that its financial policy is not in the interest of the masses. In the House of Representatives August 28, on an amendment to coin silver at the ratio of 16 to 1, 102 Democrats, 12 Republicans and 12 Populists voted in the affirmative and 112 Democrats and 113 Republicans voted in the negative, proving that a majority of the representatives of the party in the House is controlled by the gold trust. In the Senate the proportion will probably be less, but it will be sufficient with the twenty-six Republicans to defeat any amendment to the repeal bill that will benefit silver. This combination of the two old parties to legislate for the plutocrats has caused the masses to revolt and unless the dominant party redeems its pledges to the people it will be in as hopeless a minority in 1895 as the Republicans are in 1893.

It has yet opportunity to reinstate itself in the esteem of the people and if it does not avail itself of it deserved defeat awaits it. That opportunity is afforded by its control of the Legislative and Executive departments of the Government which enables it to redeem the pledge which it gave in the Chicago Convention in June, 1892. That pledge declares "that the representatives of the Democratic party of the United States in National Convention assembled, denounce the Republican legislation known as the Sherman act of 1890 as a cowardly makeshift, fraught with possibilities of danger for the future, which should make all of its supporters, as well as its author, anxious for its speedy repeal, and hold to the use of both gold and silver as the standard money of the country and to the coinage of both gold and silver without discriminating against either metal or charge for mintage."

Now that redemption of a part of that pledge is assured by the repeal of the Sherman act, the representatives of the party in Congress should forthwith introduce and pass a bill to redeem the second clause of the pledge. Get on the statutes immediately following the act to repeal the Sherman law an act declaring gold and silver the standard money of the country and providing for the coinage of both gold and silver without discriminating against either metal or charge for mintage. Upon the passage of such a bill depends the future of the Democratic party. With such an act on the statutes its lease of power would be extended indefinitely, otherwise it will lose Congress in 1895 and the Presidency in 1896 and go the way of the Whig party.

THE COMING CONFLICT.

The repeal of the Sherman act by the Wall Street combination, which consists of Democrats and Republicans, will influence the State elections east and west a week from next Tuesday. It is claimed at Washington that the passage of the repeal bill will strengthen the Democrats in New York and Massachusetts, but it is admitted that it will weaken the party in Virginia. While there will be large accessions to the Populist ranks in Iowa and Ohio, the Republicans will carry both States. In Kansas, Nebraska and Colorado the elections will be entirely local, and the Populists will beyond question elect their tickets in nearly all the counties in those three States.

It is proposed by the leaders of the free coinage party to hold a great National Silver Convention before the campaign of 1894 is commenced to get the party in battle array for the great Congressional fight. On the subject the *Concord News* has the following:

The concerted action covering every congressional district in the United States must be agreed upon. Agitation must be kept red hot, East, West, North and South, during the coming prolonged labor depression, and to make this agitation effective thorough organized movement must be perfected. It should not be forgotten that the approaching struggle is to be between the common people, the workers and producers of the United States, and the combined money kings of Europe and America. It is folly to underestimate the importance of the coming conflict. Let the preparations for it be timely and thoroughly understood.

The financial question is concluded to be the greatest and gravest issue that has been before the people of the United States since secession was settled by the surrender of General Lee. If the theory of the goldites prevail the country will be on a single standard basis, contraction of the currency will follow, and dull times, low prices and general depression will be the inevitable result. The issue should, therefore, be generally discussed and squarely submitted to the people at the elections next year that the will of the majority may be ascertained and embodied in an act of Congress remonetizing silver.

SENATE PROCEEDINGS.

Voting on the Amendments to the Repeal Bill.

A FATAL STABBING AFFRAY.

What a Member of Congress Says About the A. P. A.

VOTING ON THE AMENDMENTS.

Every Proposition Favorable to Silver Defeated—Sherman Wants Bonds Issued.

WASHINGTON, October 28.—A roll call to-day fifty-two Senators responded, and when the repeal bill was taken up Walcott argued against its passage.

Sherman followed in favor of the bill, and referred to the depleted condition of the treasury. He said the Secretary of the Treasury should be authorized to issue bonds, and proposed the sale of \$200,000,000 bonds at 3 per cent.

Corman made some remarks and was followed by Stewart, who predicted financial disaster would follow repeal, as did also Shoup.

Berry offered the Bland-Allison act as a substitute for repeal. He spoke for the silver Democrats of the South, who wanted something done for silver.

Voorhees insisted that silver legislation would not end with the passage of the repeal bill. He opposed the issue of bonds at this time, but thought Sherman was right and provision should be made for bonds.

At the close of Voorhees remarks voting on the amendments commenced with the following result:

The Bland-Allison amendment was lost—33 to 37.

At 4:01 Allen of Nebraska offered an amendment to coin the bullion in the Treasury. Lost—31 to 41.

At 4:05 p. m. a vote on Blackburn's amendment, offered some days ago, resulted: Yeas, 28; nays, 42.

At 4:15 Stewart offered an amendment for a conference of all American States to fix a uniform silver coinage, and when all countries agreed upon such a coin and opened their mints to free coinage of silver the United States should do the same. Rejected—yeas, 32; nays, 41.

At 4:25 Squire offered his amendment providing for the repeal of the purchasing clause; the coinage of \$2,000,000 per month, the Treasury to retain seigniorage; the issue of \$300,000,000 three-year 8 per cent bonds, and authorizing National Banks to issue the full amount of circulation for bonds deposited. He asked a separate vote on the first two sections, which did not provide for bonds. The first two sections were rejected—yeas, 30; nays, 42.

At 4:30 Voorhees gave notice that he will ask for a final vote on the repeal bill at 2 o'clock on Monday.

Squire asked to withdraw the remaining section of his amendment. The request was granted.

Butler said that after consultation with the Senator from Indiana he would withdraw his amendment for the repeal of the tax on State banks.

At 5 o'clock Allen offered an amendment for free silver coinage. Rejected—yeas, 28; nays, 41.

Peffer offered an amendment declaring every dollar equal to every other dollar. Rejected—yeas, 28; nays, 41.

At 5:15 the amendments being disposed of and the bill reported to the Senate, the amendment being Voorhees' bill to the Wilson bill, it was agreed to and the Senate went into executive session.

At 5:30 the Senate took a recess till 11 o'clock on Monday.

AMERICAN PROTECTIVE ASSOCIATION.

What a Member of Congress Says of It.

WASHINGTON, October 28.—Representative Wadcock, who offered a resolution in the House of Representatives to investigate the methods of the American Protective Association, a secret organization which has been making its power felt in politics in many of the States, says that in Michigan it is dominated by Canadian Orangemen of the most ignorant class. It is particularly strong in cities. He says it resembles the old Know-nothing movement, except that instead of being directed against foreigners, it is directed against Catholics. It has issued alarming circulars as to the aims of the Catholic Church in this country, declaring among other things, that it is the intention of the Catholics to rise and slaughter their Protestant neighbors. Those circulars have caused a reign of terror, and members of the organization are arming themselves to repel an invasion of the Pope. If an investigation is ordered, it is expected that some astonishing revelations will be made concerning this new political organization. The members are said to be sworn to oppose Catholics for office.

Fataally Stabbed.

LOS ANGELES, October 28.—Joseph Benkert, a well-known butcher, is lying at the point of death at his residence, 518 Aliso street, from an ugly knife wound inflicted by Joel H. Logan of Center street.

Canada Objects.

TORONTO, October 28.—The *Telegraph* to-day says: "It is not consistent with the dignity of Canada to permit United States officials to inspect immigrants at Canadian ports. There is a sentimental objection to the idea of United States officials exercising the authority of their Government on Canadian soil. More than that is the certainty that those whom the alien officers reject as being too poor to enter the republic via Canada will become a burden upon the country that foolishly obliges the railways by allowing itself to be used as the back door to the United States."

San Francisco Postoffice.

WASHINGTON, October 28.—Chairman Bankhead of the House Committee on Public Buildings and Grounds, has introduced in the House a resolution calling for the appointment of a special committee to investigate the alleged fraudulent methods in the purchase of a site for the San Francisco public buildings. It is not yet known what members will be selected for this committee.

Sentenced to San Quentin.

SUSANVILLE, October 28.—C. W. Heap has been sentenced to San Quentin for eighteen months for attempting to kill his wife last August. He was drunk at the time.

The weekly statement of New York banks gives the reserve increase, \$6,147,000; loans increase, \$3,285,000; specie increase, \$846,000; legal tender increase, \$8,194,000; deposit increase, \$11,575,000; circulation decrease, \$80,000. The banks now hold \$48,787,000 in excess of the legal requirements.

WREN AND FULTON.

A suggestion that the Populists and Republicans Make Them Their Respective Candidates.

ED NEVADA STATE JOURNAL—I read with much interest some time since the Wren-Fulton controversy with regard to silver, and the idea has been suggested to me that a very fine test of the question of the unanimity of the people of the State for free coinage—better even than non-partisan resolutions—might be had if the two parties, the Republican and Populist, would nominate these two gentlemen as their respective candidates for Governor. Both may be said to be typical representatives of their respective political affiliations: Mr. Fulton of the Republican party and Mr. Wren of the Silver party, and by the eternal fitness of things would make most consistent standard-bearers. Walk one Way, Look Another.

You often see persons doing it, and many a poor fellow has stumbled his toes or cracked his shins falling over some object. You call them fools, but it may be their brains are benumbed by a torpid liver. People suffering with Indigestion and Dyspepsia get confused—the brain is inactive. You must wake up the liver by taking Simmons Liver Regulator, the cure for this disorder, and for Biliousness and Sick Headache.

Deserving Praise.

We desire to say to our citizens that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never had remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price if satisfactory results do not follow their use. UNDER THE DOME.

Matters Pertaining to Nevada—Some Nevada People and What They are doing.

(By C. D. Van Duzer.)

The following bill has passed the House, has been reported to the Senate where speedy action will be taken. In a measure it will afford relief to the western miner or mine owner upon whom assessment work may be a grievous burden this year. The bill was reported from the Committee on Mines and Mining of which our Congressman Francis G. Newlands is a member and was passed to speedy action. As it may be of interest to Nevada mining men I send text of same, as will be read below.

An act to amend section twenty-three hundred and twenty-four of the Revised Statutes of the United States, relating to mining claims.

That the provision of section numbered twenty-three hundred and twenty-four of the Revised Statutes of the United States, which required that on each claim located after the 10th day of May, eighteen hundred and seventy-two, and until patent has been issued therefor, not less than one hundred dollars worth of labor shall be performed or improvements made during each year, be suspended for the year eighteen hundred and ninety-three so that no mining claim which has been regularly located and recorded as required by the local laws and mining regulations shall be subject to forfeiture for nonperformance of the annual assessment for the year eighteen hundred and ninety-three; provided, that the claimants of any mining location, in order to secure the benefits of this act shall cause to be recorded in the office where the location notice or certificate is filed on or before December thirty-first, eighteen hundred and ninety-three, a notice he or they, in good faith intend to hold and work said claim. This act shall take effect from and after its passage.

Passed the House of Representatives October, 14th, 1893.

JAMES KERR, Clerk.

Congressman Newlands materially assisted in bringing the measure to the front. It was considered the best possible concession to mining interests under the circumstances.

SOME NEVADA PEOPLE.

George A. Bartlett, of Eureka, who was admitted to the bar in Nevada and who has studied law with Hon. Thomas Wren, arrived in the city a few weeks ago and has entered the senior class of the Georgetown Law College, from which institution he expects to graduate next June when it is his intention to return to the Sagebrush State and engage in the practice of law. He is an exceedingly bright young man, whose energy and ability will bring him to the front in Nevada some day.

Frank Norcross is also a member of the present senior class of Georgetown Law College. His junior year was completed with distinguished credit to himself as he stood very near the top of a class, the members of which were all distinguished for ability. His record in the Census Office for efficiency has placed him at the top of the list in his division. In conversation with one of the division chiefs of the census office recently, your correspondent was informed that he was considered one of the best clerks in the department. Frank is one of the leaders of his class in college in all college matters relating to class politics and societies, possesses a fine voice and excellent delivery, he is ranked as one of the readiest debaters in college.

Paul Roux, formerly of Eureka, and for years one of the Assistant Sergeant-at-Arms of the Senate, was among one of the victims of Democratic decapitation. He is now head clerk in the Grand Hotel, in New York City.

Edwin R. Wallace, a brother of C. C. Wallace of Eureka, until recently Clerk of the Committee on Mines and Mining, has resigned to accept a better position at Harrisburg. He resembles very much his handsome and distinguished Nevada brother. Edwin R. has for years been a prominent Democrat in Pennsylvania politics.

Ex-Congressman Bartine is at work compiling a statistical publication relative to the silver question which is to be used by the Bimetallic League. Mr. Bartine's profound knowledge of the question eminently fits him for such a task. Such publications are needed to educate the people of the East.

There is an unprecedented demand for Congressman Newlands' speech, which has met with widespread popularity; 15,000 copies of it were sent into Virginia, and requests come for it from all over the East. A Wall street banker pronounced it the most unique and ingenious argument yet presented from the silver side. Over 35,000 copies have been sent out and still the demand comes for more.

Senator Stewart, with his characteristic, tireless energy, has hardly slept of nights watching the silver fight. He has proved a strong card in the critical hour of the fight, and the fund of information he has on his tongue's end has come in good play on numerous occasions.

Senator John P. Jones delivered one of his able speeches the other day which attracted much attention. It was in the line of his Brussels' argument and was listened to with marked attention.

It is rumored that the Sacramento News is to start up again with a very prominent newspaper man at its helm.

To keep in line with the stringent times hair cutting at Helmsold's Comfort Tonsorial Parlors has been reduced to 25 cents.

The cattle killing record has been broken at Armour's Kansas city packing house, 3,218 head being slaughtered in eleven hours.

The World's Fair will close next Monday evening, October 30th. After that date visitors will be admitted to the grounds by paying the regular price to see the work of demolition.

The Managers of the Nevada State exhibit received positive information from R. B. Mitchell, Acting President of the Midwinter Fair, that the State of Nevada would be given one of the finest positions in the Mechanical Arts building and Agricultural and Horticultural buildings.

The Wadsworth Dispatch says George McPherson writes that he, W. H. A. Pike and Walter McPherson are doing Chicago, and in his estimation language fails to describe the great fair. While passing the Wild West show Mr. Pike was hit in the neck by a stray shot but of course it didn't hurt him.

How the bicycle interest has spread among women is evidenced by the recent announcement in the advertisement of a Brooklyn dry goods firm that a rack is provided for bicycles, and "wheels may be checked while the ladies make their purchases."

The Silver State says Big Minnie, wife of Charley Sam, the Indian murderer, has asked protection of Constable Wolf from the Indians, who threaten to burn her house and if possible kill her and her children in revenge for the murders committed by her "worse" half.

The Dispatch says: Buyers in search of small lots of steers to feed for beef begin to realize that there is a scarcity already. Men who have formerly taken 100 head have to be satisfied with 75, those who would like 150 do well to get hold of 100, etc. That is the condition of things for sixty miles around Wadsworth.

Yo Tambien won the sweepstakes at Chicago yesterday. Clifford, Lamp-lighter and Yo Tambien were the starters and the race was one mile and an eighth, each horse carrying 119 pounds. Time 2:01½. Yo Tambien was raised by Theodore Winters at his Washoe Valley horse ranch.

A Spokane attorney has broken the record for short pleas. Louis H. Platfor is his name and the official time was eighteen seconds. He said: "Gentlemen of the jury, admitting everything the attorneys for the defense have claimed is true, I wish to say merely this: remember the assault occurred on the prosecuting witnesses' premises." The jury rewarded him by bringing in a verdict of guilty.

THE WALNUT STREET LIGHT.

An Attempt to Evade the Order of the Board of Commissioners.

At a meeting of the Board of County Commissioners as a town board it was ordered that "a light be put up at the center of Walnut and Nevada streets." The Electric Light Company employees have left a pole for an electric light at the corner of Fifth and Nevada streets and say they have orders to put up the light there instead of at the corner of Walnut and Nevada streets. There is a light on Fifth street, two blocks east of Nevada, which lights all of Fifth street west, and by this change the people living on Walnut, which has no light its entire length, will have no benefit from it, and it will light Nevada, which is a short street, its whole length if placed where the Commissioners ordered it.

Now, what the people who live on and near Walnut street would like to know is who has been monkeying with this business and has nullified the order of the Board when acting legally as a Board?

The parties asking for the light knew where they wanted it, and their request was granted, but it seems to be the intention of the Electric Light Company to place it where it is not needed.

A remonstrance against this change is being circulated and extensively signed by residents of Western Addition, who are indignant at this attempt to prevent the order of the Board being carried out.

U. S. TROOPS.

A Troop of the Fourth Cavalry in Town.

A troop of the Fourth United States Cavalry, consisting of forty-seven men, Captain G. H. Gale and Lieutenant F. H. McClure commanding, arrived yesterday from Fort Bidwell in Surprise valley. The command made the trip from Bidwell to Reno in seven days. First Lieutenant J. M. Neal, now on detached service at the State University, is one of the officers of the troop and cordially welcomed his old comrades in arms.

The officers and men will remain in Reno until this evening, but four cars of their horses will be shipped this morning to San Francisco.

The appearance of regulars on the streets make old Nevadans think of the Plute and Bannock wars, when dashing cavalry men with clanking sabers were not an unusual sight in many parts of the State. Now there is not a military post in the State, and Fort Bidwell, which was the only post in California east of the Sierra Nevada, has been abandoned. Firewater has demoralized the red man and now he fights only when he is drunk.

He Wanted no Apology.

"I will have to give you silver," said a cigar dealer in Chicago to Mr. Londoner of Denver, as the latter handed out a five dollar bill.

"Don't you apologize to me for giving me silver, you unpatriotic, un-American son of a goldbug," replied Mr. Londoner.

"August Flower"

"I inherit some tendency to Dyspepsia from my mother. I suffered two years in this way; consulted a number of doctors. They did me no good. I then used **August Flower** and it was just two days when I felt great relief. I soon got so that I could sleep and eat, and I felt that I was well. That was three years ago, and I am still first-class. I am never without a bottle, and if I feel constipated the least particle of a dose or two of **August Flower** does the work. The beauty of this medicine is, that you can stop the use of it without any bad effects on the system. Constipation while I was sick I felt everything it seemed to me a man could feel. I was often miserable. I can say, in conclusion, that I believe **August Flower** will cure anyone of indigestion, if taken Life of Misery with judgment. A. M. ACQUITTED AFTER 21 YEARS.

A Georgia Man Accused of a Murder Which Was Developed in Mystery. A Cleveland (Ga.) correspondent of the St. Louis Globe-Democrat sends his paper the following story: At midnight a verdict was rendered in the superior court which relieved Marcus Van Diver of a charge of murder which he has been battling for over 21 years. In June of 1873 M. K. Palmer, who was at the time one of the most noted lawyers and politicians of the state, attended court here. He was engaged in the prosecution of cases against several prominent men charged with forging land titles. While riding to the home of a friend with whom he boarded he was shot to death. No trace of his murderer could be found. A few weeks later Marcus Van Diver, who was a poor cropper, suddenly bloomed out into a man of means. Where he got his money no one knew, and for want of a better explanation the people declared that the land title forgers had paid him to murder the man who was so much in their way. This theory led to an indictment for murder.

For some strange reason, while proclaiming his innocence, Van Diver always kept his case at the head of the docket, and for 21 years has averted trial. To secure these continuances required influences of the strongest kind, which he always commanded. The courthouse, with many records, has been burned since 1872, and many witnesses have died. Van Diver elected this last week that it was safe to allow his case to come to trial. Among the persons present in the courtroom was the posthumous daughter of the dead lawyer, who is now a beautiful young woman. The verdict of acquittal was unavoidable, because of the death and absence of witnesses. Van Diver is going to move to Texas next week.

TOMBS OF THE PTOLEMIES.

No Mistake About the Discovery of the Burial Place of Cleopatra.

"The tombs are intact, and no doubt as the excavations proceed the tombs of all the Ptolemies will be brought to light. There is no doubt about the matter, as the names of the occupants are over the doors. The doors are of bronze and covered with Greek inscriptions. Here and there the bronze has corroded, so that with the aid of a magnifying glass they could see the marble sarcophagi and lots of other things in the rooms. Some of the vaults seem to be full of rolls and parchments, but this is mere guesswork on the part of the observers. All will be cleared up when the khedive returns from Constantinople, as he is to superintend the opening of Alexander's and Cleopatra's tombs." Dr. Grainger, the writer of this letter, goes on to say: "Lots of beautiful vases and gold things have been found and a most beautiful executed stela, in whose tomb they found a crown of gold. My information is at first hand because I had a long conversation with the proprietor of the land and the manager of the digging this afternoon. In the course of digging the Greek gentleman came upon a pit that led down to a series of vaults 30 feet below the surface. These are the tombs of the Ptolemies, and the one exposed to view is that of Cleopatra. The others have still to be excavated, but they are there—only all the passages are filled with earth. Twenty feet deeper and only six feet above the sea level is Alexander's tomb, all by itself, only there are some chambers near it filled with rolls and parchment—in other words, a library of ancient books." Boston Advertiser.

Preparing to Demolish the Fair.

Builders of the World's fair are now getting ready to tear the great exposition down. More than a year elapsed between the time congress voted to send the exposition to Chicago and the beginning of operations in Jackson park. One day after the final closing of the gates on Oct. 30 the work of destruction will begin. The organization is already perfecting for the destruction. It only waits the word from Director General Davis. The word will be given on the morning of Oct. 31.

How fast the exposition will fall cannot of course be told now. Many elements of uncertainty enter into the question, not the least of which is the state of the weather. During the closing days of October the winds that sweep down over Lake Michigan bring icicles and snow, little will be left at the end of a month but a remembrance of the gorgeous interior. The buildings will stay—most of them for six months and some of them longer—but the exhibits will be boxed and crated and hauled away on freight cars.—Chicago Herald.

Curious Effects of a Slight Hurt.

Alfred Cook, who was hurt in the railway accident near Marshfield, is still in a precarious state. He is still delirious and also totally blind from the blow on his head, the only external mark of which is a bruise about as large as a quarter. He imagines that he is still under the car and continually pleads that his companion (who was but slightly hurt) be taken out quickly. "He is worse hurt than I am, and I can wait," is the constant cry which shows the nature of the man. He thinks they have been under the car three weeks and protests against the delay and darkness, which he attributes to bad management on the part of the railroad company. He does not realize that he is blind and frequently asks why lanterns are not procured. At times he imagines the car is settling down upon him and struggles to hold it up until he sinks back exhausted. At such times he has to be held in bed.—Milwaukee Journal.

TO MAKE FARMERS OF THEM.

New York's Poor Boys to Be Trained by the Children's Aid Society.

Mr. Joseph M. White of this city has bought for the Children's Aid society a 125 acre farm. The society purposes here to establish a farm training school for the older boys who come under its charge.

The question of what to do with lads of from 14 to 18 years old has long troubled the society. Many farmers are unwilling to take city boys of that age who have never had any training. They can do something in the way of correction for the younger boys, but very little when they are more than 14.

It was decided that a farm on which the boys could receive some training in agriculture as well as religious instruction would solve the difficulty. Those boys who proved themselves willing to work and behave themselves could be sent to farmers' homes, while those who showed no disposition to get along could be returned to the city.

A committee of the board of trustees advertised for a suitable farm and soon had about 40 under consideration. One of these, two miles north of Kenesio on the Harlem railroad, seemed the best, but it was beyond the reach of the society, which had only about \$10,000 to spend—half the sum required.

Mrs. White heard of the committee's troubles about three months ago. She offered to buy the farm outright for the society on condition that it would appropriate the \$10,000 it had intended to expend to an endowment fund.

She made one other condition—that the boys on the farm should receive daily religious instruction. The society of course agreed. Mrs. White also added \$10,000 more to the endowment fund. The deed for the farm is now in the society's hands.

The boys will be kept under a firm discipline. It is not expected to keep them on the farm more than a few months each. It is thought in that time it can be determined whether they are worthy to go into private homes.

One or two practical farmers will be on hand to direct the efforts of the boys. The produce raised will be sold in the neighboring villages or sent to this city for sale. It is hoped in this way to keep the expenses of the farm at a minimum. The society expects to have from 100 to 200 boys there when everything gets into running order.

In the 40 years of its existence the Children's Aid society has found homes on farms for 75,000 homeless boys and girls. It has long desired such a place as that provided by Mrs. White, where it could give the older boys some preliminary training before sending them into the homes of the farmers.—New York Herald.

A State For Indians.

The recent mad rush into the Indian territory, by which 6,000,000 of acres were in a day covered by a motley crew of settlers, land speculators and adventurers, is but part of a plan which contemplates still greater changes in that region. The sixteenth section of the Indian appropriation bill, approved at the close of last session, provides that the president shall appoint three commissioners to negotiate with the five civilized tribes of the Indian Territory for the extinguishment of Indian or tribal title and to take the necessary steps for its erection into "a state of states." Each of these commissioners is to have a salary of \$5,000 a year and "their reasonable and proper expenses" and shall have a secretary, stenographer and interpreters. Fifty thousand dollars were provided for the expenditure of this commission. The agreements they make are to be submitted to congress for its ratification.—Washington Special.

Church and Pastor Expelled.

At a meeting of the Greene county (Mo.) Baptist association recently Elder J. M. Carter, as well as the Ash Grove Baptist church, was expelled for heresy. Carter held that the souls of the wicked simply dissolved, and that they met no future punishment. A majority of his congregation voted to sustain him. The association outlawed the whole congregation.—Chicago Inter Ocean.
